You may have experienced a creative block once in your life, gazing upon a blank slate, hoping, praying for ideas to strike you.

But there is no need to stare at that blank page for longer than you have to with Tome.

Tome is an AI powered storytelling tool that enables you to share your ideas easily with responsive layouts that adjust to any screen size.

Whether you're generating a one pager, a mood-board or a product presentation, you can start with any prompt and Tome gives you outlines to give you the best way to express your thoughts.

Click on the logo to navigate to the app.

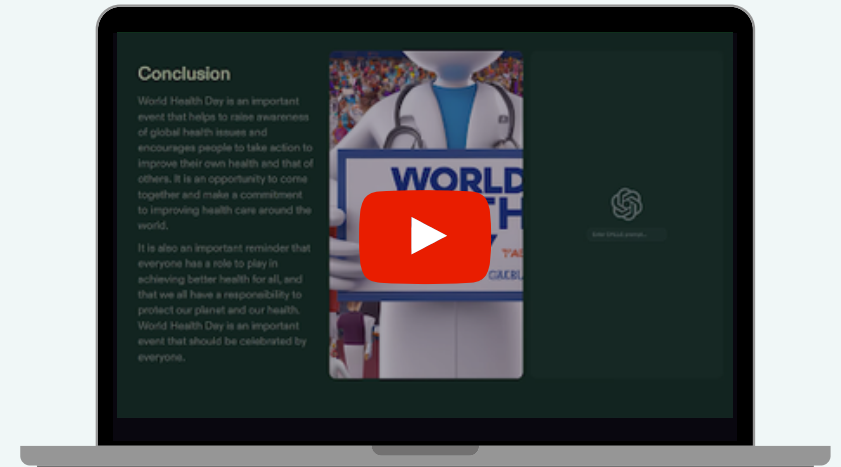

Tome has the following features:

- **Straightforward user interface:** Tome AI offers an intuitive user interface, making it ideal for marketers and content creators of all levels.

- **Themes and customization:** It also provides personalization options. You can use their built in themes and adjust the colors and fonts.

- **AI image generator:** The tool offers the unique capability of creating AI-generated images, which you can quickly integrate into your project.

Case Study

Using the same prompt to generate presentations.

To test the differences between these apps, we ran the same text through these 3 presentation apps to see the differences in their styles.
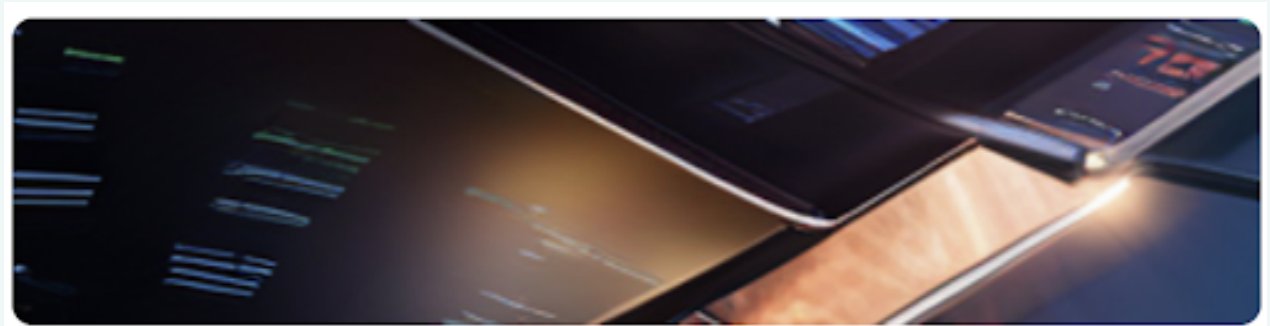

We prompted these apps to make a presentation about

'How to improve time management as a new project manager.'

Prezo

Prezo generated 10 slides for us.

Time Management for New Project Managers
